**Welcome to EAPC and the EAPC 2008 pre-conference in Lofoten, Northern
Norway**

23 – 28 May 2008

Pain, cachexia and depression in palliative care
Genetics, assessment/classification and treatment

The organizing committee is delighted to extend an invitation to all our colleagues and friends to join us on board the coastal express Hurtigruten - "The World's Most Beautiful Voyage" as part of the main EAPC pre-conference event. This voyage is the perfect setting to take part in our unique pre-conference program. The pre-conference will feature a series of seminars by world leading experts in the fields of pain, cachexia and depression.

Participate in the discussion of these three highly relevant issues in palliative medicine alongside the spectacular scenery of Norway's majestic, unspoilt landscape. The Hurtigruten heads the Lonely Planet Guide's Blue List for classic voyages, and National Geographic traveller Magazine has named the Norwegian coastline as one of the world's top destinations.

Preliminary Program:

23 May	Departure Trondheim at 12:00
24 May	Arrival Svinøya Rorbuer, Lofoten at 21:00
25-26 May	Pre conference seminar in Lofoten
26 May	Departure Svolvær, Lofoten at 19:30
28 May	Arrival Trondheim at 06:30

Aboard one of Hurtigruten's stylish ships, we depart from the city of Trondheim on May 23rd, reaching the enchanting Lofoten Islands the following evening. Seminars will be conducted by our invited medical experts on May 25th and 26th. Apart from this excellent chance to participate in these world-class, leading edge seminars, participants also have the exciting opportunity to cruise the famous Norwegian fjords, try out deep-sea fishing or perhaps visit the biggest Viking-age building ever found. We return to the conference city of Trondheim on the morning of May 28th. Participants are welcome to bring accompanying persons on this trip.

Our pre-conference will consist of a combination of lectures and parallel group activities in Lofoten, and meetings and informal contact on Hurtigruten.

The seminar is organised in collaboration between the EAPC Research Network and the European Palliative Care Collaborative (EPCRC), a multi national EU funded project. The seminar will be CME credited.

Make sure to reserve space in your calendar for this once in a lifetime opportunity. For more information, please visit our website: www.eapcnet.org/research2008
